CLINICAL TRACK

November 9, 2017

Session I-A: The Multidisciplinary, Patient Centered Approach to IBD Care
Co-Moderators: Raymond K. Cross, Jr., MD, MS and Sunanda V. Kane, MD, MSPH, FACG

12:00 pm  Rationale for a multidisciplinary, patient-centered approach to IBD care
Stephen B. Hanauer, MD, FACG and Corey A. Siegel, MD, MS

12:20 pm  Management of psycho-social issues for IBD patients and their families
Laurie A. Keefer, PhD and Eva Szigethy, MD, PhD, FACG

12:40 pm  The multidisciplinary surgical approach to IBD patient care
Amy L. Lightner, MD and Scott A. Strong, MD

1:00 pm  The pediatric-adult transition: How to bridge the change
Sandra C. Kim, MD and Millie D. Long, MD, MPH

1:20 pm  Novel approaches to improve caregiver-patient interactions using integrated models
Gil Y. Melmed, MD, FACG and Miguel D. Regueiro, MD, FACG

Session II-A: The Changing Healthcare Landscape
Co-Moderators: Jean-Federic Colombel, MD and Stephen B. Hanauer, MD, FACG

2:30 pm  Will changes in healthcare legislation impact IBD patient care?
John I. Allen, MD, MBA, FACG
2:50 pm  How can the caregiver better navigate medication choice and cost hurdles?  
Shivani Patel, PharmD, BCPS and David T. Rubin, MD, FACG

3:10 pm  What should medical centers and administrators do in order to optimize patient care in our complex environment  
John I. Allen, MD, MBA, FACG and Thomas A. Ullman, MD, FACG

3:30 pm  Advances in information technology that will improve patient care: Electronic medical records, the internet, social media, telemedicine, and remote video-medicine  
Raymond K. Cross, Jr., MD, MS and Siddharth Singh, MD, MBBS, MS

3:50 pm  What we can learn from the European Crohn’s and Colitis Organization's approaches to IBD Education and IBD Guidelines  
Silvio Danese, MD, PhD

Session III-A: New and Emerging Therapeutic Approaches for IBD  
Co-Moderators: David T. Rubin, MD, FACG and Bruce E. Sands, MD, MS, FACG

5:10 pm  The treatment of moderate to severe IBD with anti-TNF Biologics and Immunomodulators  
Gary R. Lichtenstein, MD, FACG

5:30 pm  Future IBD therapies  
Silvio Danese, MD, PhD

5:50 pm  Optimizing adhesion molecule-based therapies  
Brian G. Feagan, MD, FACG

6:10 pm  Understanding the use of IL12/IL23 targeted Biologics  
Stephen B. Hanauer, MD, FACG, on behalf of William J. Sandborn, MD, FACG
November 10, 2017

Session IV-A: Making the Choice of Therapy for Crohn’s Disease: How Evidence Impacts Practice
Co-Moderators: Nilesh Chande, MD and Miguel D. Regueiro, MD, FACP

8:00 am Presentation on Cochrane Reviews
Nilesh Chande, MD

8:10 am Presentation #1: Use of anti-TNF therapies for Crohn’s disease
Siddharth Singh, MD, MBBS, MS

8:30 am Presentation #1: Cases with debate and discussion
Panelists: Brian G. Feagan, MD, FACP, Stephen B. Hanauer, MD, FACP, and Siddharth Singh, MD, MBBS, MS

8:40 am Presentation #2: Vedolizumab as a treatment for Crohn’s Disease: Efficacy and safety
Stephen B. Hanauer, MD, FACP, on behalf of William J. Sandborn, MD, FACP

9:00 am Presentation #2: Cases with debate and discussion
Panelists: Brian G. Feagan, MD, FACP, Stephen B. Hanauer, MD, FACP, and Siddharth Singh, MD, MBBS, MS

9:10 am Presentation #3: Ustekinumab as a treatment for Crohn’s disease: Efficacy and safety
Brian G. Feagan, MD, FACP

9:30 am Presentation #3: Cases with debate and discussion
Panelists: Brian G. Feagan, MD, FACP, Stephen B. Hanauer, MD, FACP, and Siddharth Singh, MD, MBBS, MS

Session V-A: Case Discussions in IBD
Co-Moderators: Miguel D. Regueiro, MD, FACP and Corey A. Siegel, MD, MS

10:30 am Case Discussion I: Management of infections in IBD patients on immunomodulators and/or biologics
Panelists: David G. Binion, MD, FACP, Russell D. Cohen, MD, FACP, Jean-Frederic Colombel, MD, and Edward V. Loftus, Jr., MD, FACP
11:00 am  Case Discussion II: Challenges in the care of the pregnant IBD patient  
*Panelists: Maria T. Abreu, MD, Anita Afzali, MD, MPH, FACG, Kim L. Isaacs, MD, PhD, FACG, and Sunanda V. Kane, MD, MSPH, FACG*  
[Watch Presentation] [View Slides]

11:30 am  Case Discussion III: When and how to modify IBD therapies: Increasing, maintaining or de-escalating biologics and/or immunomodulators; Future use of combination biologics  
*Panelists: Gary R. Lichtenstein, MD, FACG, David T. Rubin, MD, FACG, and Bruce E. Sands, MD, MS, FACG*  
[Watch Presentation] [View Slides]

12:00 pm  Case Discussion IV: Controversies in the surgical management of complicated Crohn's disease  
*Panelists: Andre D'Hoore, MD, PhD, Philip Fleshner, MD, and Feza Remzi, MD*  
[Watch Presentation] [View Slides]

**Session VI-A: Case-based Clinical Breakout Session**

2:00 & 3:00 pm  A: The outpatient with severe, refractory Crohn's disease, who failed prior biologics: Case studies  
Ashwin N. Ananthakrishnan, MBBS, MD, MPH, Jean H. Ashburn, MD, Gary R. Lichtenstein, MD, FACG, and Fernando S. Velayos, MD, MPH  
[View Slides]

B. Extra-intestinal manifestations of IBD: Case studies  
Anita Afzali, MD, MPH, FACG, Meenaskshi Bewtra, MD, PhD, MPH, Russell D. Cohen, MD, FACG, and Marc B. Schwartz, MD  
[View Slides]

C. Challenges in the surgical management of severe, refractory ulcerative colitis: Case studies with videos  
David Dietz, MD, Neil H. Hyman, MD, Sonia Ramamoorthy, MD, FACS, FASCRS, and Douglas C. Wolf, MD, FACG  
[View Slides]

D. Sexual Dysfunction in IBD: Case studies  
Raymond K. Cross, Jr., MD, MS, Marla Dubinsky, MD, Andre D’Hoore, MD, PhD, and Kim L. Isaacs, MD, PhD, FACG  
[View Slides]

E. Treating IBD patients with stress, anxiety, and/or depression: Case studies  
Laurie A. Keefer, PhD, Alan C. Moss, MD, FACG, Mark T. Osterman, MD, MSCE, and Eva Szigethy, MD, PhD, FACG  
[View Slides]
F. When should the asymptomatic or mildly symptomatic IBD patient be treated? Case studies

Faten N. Aberra, MD, MSCE, Maria T. Abreu, MD, L. Campbell Levy, MD, and Thomas A. Ullman, MD, FACG

Session VII-A: Deciphering an IBD Operative Report: What Every Gastroenterologist Should Know

Co-Moderators: Philip R. Fleshner, MD, Amy L. Lightner, MD, Edward V. Loftus, Jr., MD, FACG, Gil Y. Melmed, MD, FACG, and Feza H. Remzi, MD

4:20 pm Small bowel resection/stricturoplasty
Javier P. Salgado, MD

4:40 pm Ileocolic resection
Neil Hyman, MD

5:00 pm Ileal pouch-anal anastomosis
Philip R. Fleshner, MD

5:20 pm Failing ileal J pouch
Feza H. Remzi, MD

5:40 pm Perianal abscess and fistula
Amy L. Lightner, MD

November 11, 2017

Session VIII-A: Advances in Endoscopy for IBD

Co-Moderators: Adam S. Cheifetz, MD, FACG and Douglas C. Wolf, MD, FACG

8:00 am Use of endoscopy to evaluate esophageal, gastric, and duodenal Crohn’s disease (videos)
Mark T. Osterman, MD, MSCE

8:20 am How to access and determine the severity and complications of small bowel Crohn’s disease (videos)
Asher Kornbluth, MD

B. Treatment of complicated ulcerative colitis patients following surgery: Case studies with videos
Willem Bemelman, MD, Paulo G. Kotze, MD, Scott Strong, MD, and Thomas A. Ullman, MD, FACG

View Slides

C. Managing IBD patients with a prior or current malignancy: Case Studies
Jean H. Ashburn, MD, Meenakshi Bewtra, MD, PhD, MPH, Jason K. Hou, MD, MS, FACG, and Lauren K. Tormey, MD

View Slides

D. Recognizing and managing side effects due to medications used to treat IBD: Case studies
Anita Afzali, MD, MPH, FACG, Leonard Baidoo, MD, FACG, L. Campbell Levy, MD, and Millie D. Long, MD, MPH, FACG

View Slides

E. Reassessing immunomodulators: Which patient, which drug, and which dose: Case studies
Ashwin N. Ananthakrishnan, MBBS, MD, MPH, Seymour Katz, MD, MACG, Marc B. Schwartz, MD, and Douglas C. Wolf, MD, FACG

View Slides

F. Use of therapeutic endoscopic techniques to manage complications of Crohn's disease
Raymond K. Cross, Jr., MD, MS, Francis A. Farraye, MD, MSc, FACG, Asher Kornbluth, MD, and Bo Shen, MD, FACG

View Slides

Session XI-A: Progress in IBD Patient Care
Co-Moderators: Ashwin N. Ananthakrishnan, MBBS, MD, MPH and Meenakshi Bewtra, MD, PhD, MPH

4:00 pm
Defining an IBD patient's disease severity and prognosis
Corey A. Siegel, MD, MS
Watch Presentation View Slides

4:20 pm
Therapeutic drug monitoring: When, why, and how
Adam S. Cheifetz, MD, FACG
Watch Presentation View Slides

4:40 pm
Challenges in treating the elderly patient with IBD
Seymour Katz, MD, MACG
Watch Presentation View Slides

5:00 pm
Clostridia difficile in IBD
David G. Binion, MD, FACG
Watch Presentation View Slides
NURSING & ADVANCED PRACTICE TRACK

November 10, 2017

Session IV-B: Multidisciplinary IBD Patient Management
Co-Moderators: Maureen Kelly, APN, MS, PNP and Michele Rubin, MSN, APN, CNS, CGRN

8:00 am  10 things every IBD nurse should know
    Ashley Bochenek Perkovic, APN, FNP
    Watch Presentation  View Slides

8:30 am  The nurse's role in multidisciplinary "treat to target" patient care
    Anne Bobb, BSN, RN
    Watch Presentation  View Slides

9:00 am  Child and parental coping strategies
    Maureen Kelly, APN, MS, PNP
    Watch Presentation  View Slides

9:30 am  J-Pouch assessment, management, and surveillance: Strategies by a multidisciplinary team
    Michele Rubin, MSN, APN, CNS, CGRN
    Watch Presentation  View Slides

Session V-B: Case Presentations and Interactive Discussion
Co-Moderators: Maureen Kelly, APN, MSN, PNP and Michele Rubin, MSN, APN, CNS, CGRN

10:30 am  Joint pains: Are they IBD or arthritis related?
    Ashley Bochenek Perkovic, APN, FNP
    Watch Presentation  View Slides

11:00 am  "Helicopter parents": How to manage using a multidisciplinary team
    Pamela J. Morgan, BSN, RN
    Watch Presentation  View Slides

11:30 am  Risk and benefits of cannabis for IBD patients
    Betty J. White, MN, NP-C, ARNP
    Watch Presentation  View Slides

12:00 pm  Adjusting to a new ostomy and managing stoma complications
    Michele Rubin, MSN, APN, CNS, CGRN
    Watch Presentation  View Slides
PEDIATRIC TRACK

November 10, 2017

Session VII-C: Progress in Pediatric IBD
Moderators: Sandra C. Kim, MD and Daniel von Allmen, MD

4:25 pm Pediatric IBD clinical year in review
Anne Griffiths, MD

4:45 pm Advances in the use of nutrition for therapy in pediatric Crohn’s disease
David Suskind, MD

5:05 pm What are the challenges we face for pediatric patients who need surgery?
Daniel von Allmen, MD

5:25 pm Case discussion: Challenges of self-image, sexuality; contraception and pregnancy in adolescents with IBD
Panelists: Marla Dubinsky, MD, Anne Griffiths, MD, and Sandra C. Kim, MD

5:55 pm Panel discussion: Complex Pediatric IBD Cases
Moderators: Marla Dubinsky, MD and Sandra C. Kim, MD
Panel: Anne Griffiths, MD, David Suskind, MD, and Daniel von Allmen, MD
8:00 am Debate 1: The best technique for ileal pouch surgery: Top to bottom vs. Bottom to top

Pro: Top to bottom is the best technique for ileal pouch surgery
Neil Hyman, MD

Watch Presentation  View Slides

Con: Bottom to top is the best technique for ileal pouch surgery
Andre D’Hoore, MD, PhD

Watch Presentation  View Slides

8:30 am Discussion, synthesis, and consensus

8:40 am Debate 2: The best permanent stoma in IBD patients: End vs. Continent ileostomy

Pro: End ileostomy is the best permanent stoma in IBD patients
Javier P. Salgado, MD

Watch Presentation  View Slides

Con: Continent ileostomy is the best permanent stoma in IBD patients
David Dietz, MD

Watch Presentation  View Slides

9:10 am Discussion, synthesis, and consensus

9:20 am Debate 3: Do biologics heal anal fistulas? Definitely vs. Absolutely not

Pro: Biologics definitely heal anal fistulas
Paulo G. Kotze, MD

Watch Presentation  View Slides

Con: Biologics absolutely do not heal anal fistulas
Willem Bemelman, MD

Watch Presentation  View Slides

9:50 am Discussion, synthesis, and consensus
Session IX-D: Challenges in IBD Surgery
Co-Moderators: David Dietz, MD, Javier P. Salgado, MD, and Daniel von Allmen, MD

10:30 am  When should a mucosectomy IPAA be done instead of a stapled IPAA?  
Feza Remzi, MD

10:50 am  How to optimally use robotics in IBD surgery  
Sonia Ramamoorthy, MD, FACS, FASCRS

11:10 am  Can stem cell therapy treat Crohn's disease fistulae?  
Amy L. Lightner, MD

11:30 am  Does the choice of surgical technique impact recurrence rates following ileocolic resection for  
Crohn’s disease?  
Phillip Fleshner, MD

11:50 am  What sphincter preserving operations can be performed in patients with large bowel Crohn's  
disease?  
Scott Strong, MD
